## Reception in Mayor's Parlor

WoW Enterprise Club and 40 other organisations have been invited by the Worshipful Mayor of Wandsworth Cllr Juliana

Annan to the Mayor's Parlor to celebrate the launch of Women's Business Support Network, as an opportunity

to build stronger business relationships amongst women entrepreneurs in Wandsworth. Such a lovely event!

## WoW Enterprise Club

WoW Enterprise Club attended the networking business breakfast and panel discussion at the Access to Finance event at the Battersea Art Centre, as part of Wandsworth Enterprise Hub.

Professional guest speakers led us through a discussion on how to achieve financial growth in this year and work-

shops were helpful with guidance on how to get funding and pitch for finance, as well as on how to get more money by diversifying the revenue.

We will continue to support single Mothers to become entrepreneurs to solve their employability problem. Photo from left: Magda, Feli, Senia and Dominika

# WoW Inter-Generational Project

WoW award winning Inter-generational project, helping our elderly in our community, is entering its 14th year. We have organised a special community WoW Event in Homleigh Court on 20th October at 1pm to celebrate the bridging of the gap between generations in Battersea, led by WoW Mums. This Tea Party is a part of Brighter Living project organised by Wandsworth Council to support the vulnerable people in our borough and to bring people together.

Thank you to A&P foundation for their continual support and especially to our volunteer Joe Wiczorek (in the photo) for driving and delivering the food to our elderly friends.

We will continue to support our elderly neighbors in Battersea lodges this winter with our regular, weekly, free food deliveries. We feel that they should not be neglected and as our elderly friends, they should be included in all community events.

## WoW Parent Forum

WoW Parent Forum is a democratic platform for all parents to discuss any issues they might have whilst raising their family. In the last 16 years we have discussed almost all topics in relation to having happy children starting with education, homework clubs, afterschool activities and afterschool care to health, disabilities, housing, school transition, knife crime and playgrounds. We had a lot of success in solving some of the problems by organising afterschool clubs, trips for people with disabilities, intergenerational program and employment for single mums, but we had the most success in solving these problems together as a group.

## Design & Climate

WoW Mums have presented our Solar Car-Parks environmental project at the Design for the Climate Emergency event, which is a part of London Design Festival. This festival is funded by Mayor of London to include the public in the new design of our environment and to show how the design plays a crucial part in future of Net Zero London. Wandsworth Council is keen to include the citizens in creating and designing sustainable cities and to slow down the climate emergency.
